FACULTY HANDBOOK

Ebenezer International Christian Academy

Teacher Handbook 2022-2023 School Year

Intent of Handbook

Welcome to Ebenezer International Christian Academy. This handbook is intended to be used by teachers and other certificated staff to provide general information about Ebenezer International Christian Academy and to serve as a guide to the District's policies, rules, and regulations, benefits of employment, and performance expectations.

References in this handbook to "teachers" are intended to apply to all certificated staff. This includes administrative staff to the extent the handbook deals with professional expectations and conduct.

Each teacher is responsible for becoming familiar with the handbook and knowing the information contained in it. Although the information found in this handbook is detailed and specific on many topics, the handbook is not intended to be all encompassing so as to cover every situation and circumstance that may arise. This handbook is intended to supplement other documents that deal with your employment, including your employment contract, the negotiated agreement between Ebenezer International Christian Academy, and the policies and regulations of the Board of Education. In reading this handbook, please understand that where a direct conflict exists, state or federal law, the negotiated agreement, and Board policies and regulations will control.

This handbook does not create a "contract" of employment. Staff positions and assignments which do not legally require a certificate or are otherwise not protected by the teacher tenure laws may be ended or changed on an "at will" basis notwithstanding anything in this handbook or any other publication or statement, except for a contract approved by the Board of Education.

The administration will be responsible for interpreting the rules contained in the handbook and shall have the right to make decisions and make rule revisions at any time. Should a situation or circumstance arise that is not specifically covered in this handbook, the administration will make a decision based upon applicable school district policies, state and federal statutes and regulations, and the best interests of the District.

This handbook will be in effect for the 2020-2021 and subsequent school years unless replaced by a later edition.

Absences resulting from personal illness, snowbound conditions, serious family illness or funeral in the immediate family are considered as excused absences. Others are not. Specifics may be found in the most recent negotiated agreement between the EICA and the Board of Education.

All applicable paid leave will be used before any unpaid leave is taken. All paid leave must be used prior to and in conjunction with the FMLA (Family Medical Leave Act).

Principle III - Commitment to the Public:

In fulfillment of the obligation to the public, the educator:

The educator shall believe that sound professional relationships with colleagues are built upon personal integrity, dignity, and mutual respect.

In fulfillment of the obligation to the profession, the educator:

5. Shall not assign to unqualified personnel, tasks for which an educator is responsible.
6. Shall permit no commercial or personal exploitation of his or her professional position.
7. Shall use time on duty and leave time for the purpose for which intended.

B. Evaluations

Evaluations of teachers will be conducted in accordance with the school's evaluation policy. Supervisors reserve the right to observe, appraise or evaluate teachers more frequently than required by policy on an as-needed basis. Teachers are expected to participate constructively and positively in the evaluation process and to accept and implement constructive suggestions and improvement strategies developed by the administration.

C. Role Model

Teachers serve as role models for students and their actions and conduct reflect on the school as a whole. Teachers are in all respects to conduct themselves in a professional manner.

D. Relationships

It is important for teachers to maintain an effective working relationship with the administration and all co-workers, including other teachers and support staff. Teachers are also to maintain appropriate relationships with students. Appropriate relationships are established by extending social courtesies, following through on commitments and promises, being honest and consistent, and not intruding into personal matters outside the scope of duties or gossiping or spreading rumors about others.

E. Professional Attire

It is important for teachers to project a professional image to students, parents and co-workers. Appropriate attire and grooming is one of the means of projecting a professional image. Teachers are expected to maintain conservative and professional attire and grooming when on duty. As professionals, teachers are expected to be aware of the standard to be maintained. As a minimal guide, teachers should not wear clothing which students would not be permitted to wear at school. The administration may establish more detailed guidelines for individual teachers should that be necessary.

ACADEMIC MATTERS

A. Purpose and Goals of Academic Achievement

Ebenezer International Christian Academy is committed to providing a quality education for all EICA Schools students consistent with the school's mission statement. Effective, quality instruction by teachers is an essential means of meeting the District's mission of providing a quality education.

B. Teaching to Student Understanding to Assure Learning

Each teacher is responsible for teaching in a manner to meet the mission of the District and to assure student understanding and learning of the principles and concepts to be presented to students within the curriculum adopted by the District. Teachers will model classroom instruction on the educational model implemented by the District and reflected in the teacher evaluation instrument adopted by the Board of Education. Teachers are responsible for familiarizing themselves with the instructional model and the principles of instruction set forth in the evaluation instrument. The administration shall provide periodic in-services regarding the instructional model.

C. Instruction in the Curriculum

Teachers shall instruct students in the curriculum, including the use of curriculum materials, adopted and implemented by EICA.

D. Measuring and Reporting Academic Achievement

Grades and Grading. Measuring and accurately reporting the level of each student's academic achievement is of critical importance to students, parents, staff, the board of education and community. To this end, each teacher shall develop a variety of assessment instruments and techniques to measure student achievement in the curriculum adopted and implemented by the school district, record the results of such assessment, and report such results on Report Cards. Teachers should endeavor to measure student learning and understanding on a frequent basis during each quarter to provide an accurate evaluation of each student's academic achievement for that period. It is recommended that the teacher record at least two grades per week. It is generally preferable to give numerical grades for tests, quizzes, and daily work. **GRADES MUST BE RECORDED FOR ALL CURRICULAR AREAS.**

Recording Grades. All instructors are to report grades at the end of student coursework. At a minimum, all courses must contain a homework portion, a quiz portion, and assessment portion. It is the responsibility of the instructor to develop their own class content with the resources provided by EICA. If any resource outside of those provided by the institution is to be used, the school Principal must approve of it prior to use.

Grading Scheme

Course grades are to be divided as follows:

Lesson:	10%
Quizzes/Projects:	30%
Assessments:	60%
Total:	100%

Grade Scales. Teachers are to use only the grading scales set forth below. Any deviation from the approved grade scales must be approved by the building principal.

STUDENT EVALUATION SCALE: The grade scales to be used for reporting student progress in grades 9-12 are as follows:

A =	90-100
B =	89-80
C =	79-70
D =	69-60
F =	>59

Inc. = Incomplete

Conditional - indicates credit for students achieving to, or near their capacity and yet not achieving a passing mark according to grading standards (not counted as college requisite course). Credits are awarded provided future work is satisfactory.

Every student is a challenge to the teacher. Those students who do not fall within the classification of A-F require special attention. We should try to make each student feel they have been challenged, is of value, and has achieved some measure of success during the school year.

Failing grades are very easy to place behind a student's name. It is not advisable to give a student a failing grade unless every effort has been made to find the solution to their problem.

The following steps should be followed if a student is doing unsatisfactory work.

1. Have personal conference with the pupil.
2. Give the pupil special help.
3. Check teacher expectations.
4. Check the intelligence test.
5. Consult the principal and pupil's parent.

Before failing a student for the semester, the principal should be consulted. If it is certain the student is going to fail for the semester, the teacher should be sure he/she has retained definite evidence of the student's work.

At least two grades should be placed in the grade book each week for every pupil.

The preceding grade scales are expected to be used according to the following guidelines:

1. No other grade scales are to be used on official records or reports.
2. "Failing," "unsatisfactory" or equivalent terms indicate that student performance does not meet the minimum requirements established for the course. A final mark of "failing" or "unsatisfactory" in a credit-bearing course means that credit hours will not be granted.
3. The mark given at the end of each reporting period is considered an evaluation of the pupil's status at the time (for example, the final mark in a semester course is an evaluation of the pupil's status as of the close of the semester; not an average of two nine-week marks).
4. Teachers may exercise professional judgment in distributing marks.

Reconsideration of Grades/Marks: Questions raised concerning duly assigned grades will be resolved cooperatively in a conference which includes the teacher(s) involved and the Principal. In the event a grade is questioned by parents or students, the parents/guardians and/or student may be included in the conference.

Failure to resolve the issue will result in a second conference involving the Superintendent or designee and the participants in the initial conference described above. The grades designated by teachers will not be changed unilaterally by the Superintendent unless the Superintendent determines that the grade is not consistent with the requirements of law, Board policy, or the best interests of the District.

Reports to Parents: Grades and credit are assigned on a monthly basis (4weeks). Reports are sent to parents at the close of each 4 weeks during the school year.

The grade reports are produced from information supplied by teachers and distributed to students at school or are mailed to parents.

All grades are calculated on a cumulative basis.

Students probably know quite well how they stand in such areas as citizenship, attitude, cooperation, attendance, preparation of assignments, etc. The parents do not have this knowledge. If any such factors have significant bearing on the student's grades or their relationship with teachers, notes should be sent to parents. Arrangements will be made to place these teacher-written notes with the grade report forms. The notes may call attention to deficiencies, faults, or failures; or they may be commendatory in nature. If carefully prepared, they can be most valuable. Parents need to have information about areas of strengths and areas needing improvement and progress being made by their child. For their instruction, and for our ultimate well-being, if and when problems arise, it is essential that the reports be as informative as possible. Teachers should, in all cases, plan to keep on file duplicate copies of the notes which are sent to parents.

Please accept, cooperatively and professionally, the responses that parents may make subsequent to the distribution of term or mid-quarter reports. Parents are not always helpful or reasonable under these circumstances, but they do need information and direction. Please encourage parents to discuss their student-centered problems with you and give them all possible assistance.

E. Parent-Teacher Conferences

Parent-Teacher conferences are a critical opportunity for teachers to dialogue with parents (or guardians) of students regarding student achievement and learning. To this end, first quarter Parent-Teacher conferences will be scheduled. Teacher attendance at Parent-Teacher conferences is mandatory. A teacher may only be excused from attendance at Parent-Teacher conferences in writing by the Superintendent.

Teachers are expected to be prepared for such conferences. Being prepared includes having completed grade books which include all student assignments, work or tests completed within five (5) days of the date of the Parent-Teacher conference.

L. Lesson Plans

All teachers will submit lesson plans for the week to the office before they leave school on Friday night, or before school starts on Monday. Well written plans should be made available to substitutes when regular staff are ill or absent. They should (1) guide instruction on a daily and weekly basis; (2) include content and instructional methods; (3) indicate necessary resources to be procured in advance; (4) provide continuity with prior learning; and (5) be flexible to meet individual student's needs. Lesson plans submitted late will be documented in the teacher's evaluation file, if the practice becomes habitual.

Be careful with your language. Profanity or abusive language should not be used by you. Be a good role model for students. If a student uses such language, you should correct the student and take such disciplinary action as is appropriate, which may include making a report to administration.

Student Searches

Office administration should also be contacted before performing searches of students or their belongings. You may direct a student suspected of having an item in violation of school rules to wait with you until another adult is present, or to follow you to the office if you can leave your assigned area without causing risk of harm to others. Do not use physical force to detain the student or to make the student accompany you except as reasonably necessary to protect the student or others.

Student Rights

Students should be treated fairly and given the same treatment without consideration of race, color, religion, gender, or disability. Students who need special accommodations should be given those accommodations as needed for them to participate in school and school activities. Further, students have the right to have their school records kept confidential. Such information should be shared only with other school staff with a need to know the information to perform their duties.

B. Managing Student Conduct

Discipline is everyone's responsibility. It begins with the student being responsible for his/her own behavior and understanding the consequences it may cause. The teacher is responsible for articulating classroom expectations at the beginning of the school year, implementing the classroom expectations on a consistent basis, and being familiar with the student handbook. All staff are responsible for **all students** in the hallways, in the rest rooms, at assemblies, at pep rallies, and during lunch. Consequences for inappropriate behavior may include students making up time before or after school, a student or a parent conference, or a referral to an administrator.

The following guidelines will assist in maintaining appropriate student conduct and complying with the process required for student discipline.

1. On the first day of class make students aware of class expectations. Students will accept them if they know in advance and if they are fair and consistent. Students often appreciate giving input on class rules. These expectations should be in writing. Give one copy to the students, post one copy in the room and provide one copy for the principal.
2. It is important to document student behavior in your class, calls to parents, referrals, and/or communications with a student.
3. If, after attempts to improve student behavior, the problems continue, talk to the Principal about possible alternatives in discipline procedures. Be attentive and respond to "bullying."
4. If a student continues to cause problems, inform the administration for disciplinary action using the approved reporting forms. Be sure to state the problem clearly and expectations in terms of assistance, as at times the student's and teacher's stories are different. Be prepared to provide documentation.
5. Follow up on any referral.

D. Reporting Child Abuse

Florida State Law and school policy mandates school officials to make a report to the proper law enforcement agency or the Department of Health and Human Services (Child Protective Services) when there is reasonable cause to believe that a child has been abused or neglected, or a child is in a situation which would reasonably result in abuse or neglect. According to Florida State Law, abuse or neglect means knowingly, intentionally, or negligently causing or permitting a minor child to be:

1. Placed in a situation that endangers his or her life or physical or mental health;
2. Cruelly confined or cruelly punished;
3. Deprived of necessary food, clothing, shelter, or care;
4. Sexually abused; or
5. Sexually exploited by allowing, encouraging, or forcing such person to solicit for or
6. engage in prostitution, debauchery, public indecency, or obscene or pornographic photography, films, or depictions.

Teachers are to inform their principal or supervisor that they intend to make a report. Administrative staff may sometimes choose to make the report for a teacher. However, informing a principal or supervisor does not end the teacher's responsibility; teachers are obligated to make certain a report was made if they do not do it themselves.

It is vital that the report be made as accurately and as soon as possible. To assure accuracy, you are encouraged to document the date of the incident and specific statements or explanations made by a child regarding an abuse/neglect concern. Timeliness in making a report will assist in minimizing further risk to the child by allowing the police or Child Protective Services workers to interview the child during the school day and prior to an evening or weekend. In cases of physical injury (e.g., bruising or other marks), it is essential the police observe and document the injury. A counselor, the school social worker or an administrator will help you.

E. Examinations

Course examinations may be given at the option of the teacher. Class tests may be given as often as a teacher finds them necessary to evaluate their teaching and student comprehension and retention, as long as a minimum of two (2) overall assessments are provided

G. Faculty Meetings

Faculty meetings will be scheduled to provide information, in-service activities, and other items pertaining to the welfare of the school and faculty. The superintendent of schools is given a copy of the meeting agenda.
